

---

**Survey Purpose:** The following survey results were collected during the EMSINA 2021 Capability presentations on 31 March 2021. The responders to this survey were also limited to the Capability presenters and/or their teams.

---

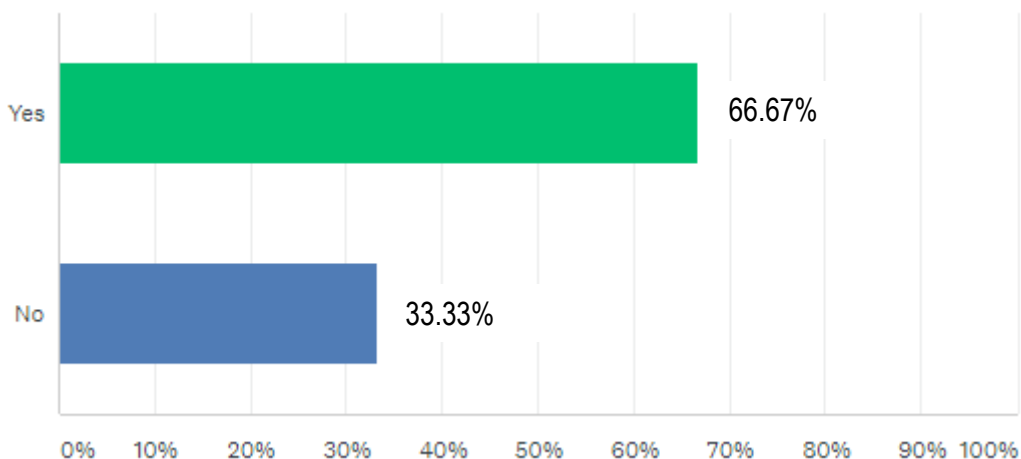

### Question 1:

Do you believe there needs to be more coordination of EM initiatives (like the ones we are hearing about today) by an overarching National Agency/Body?

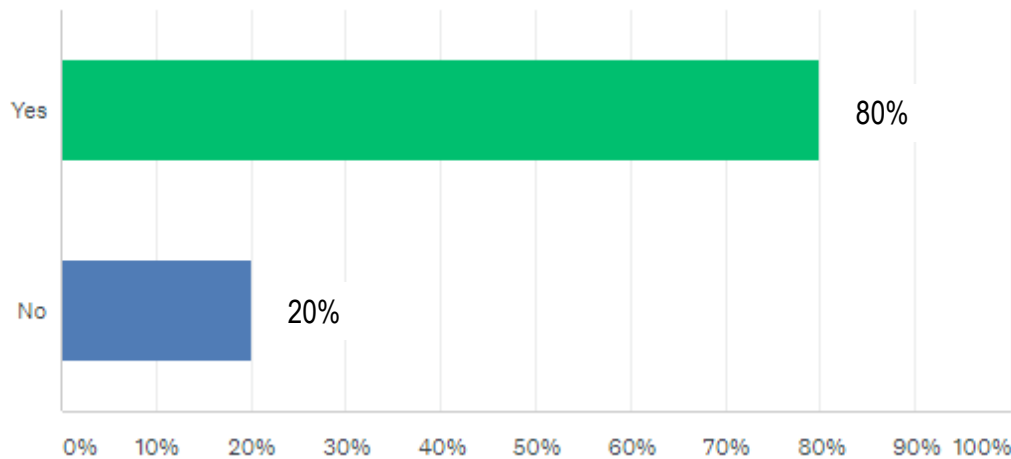

### Question 2:

When starting your project was there an expectation that the EM data requirements of your Project would be stored and available in a more centralised manner?

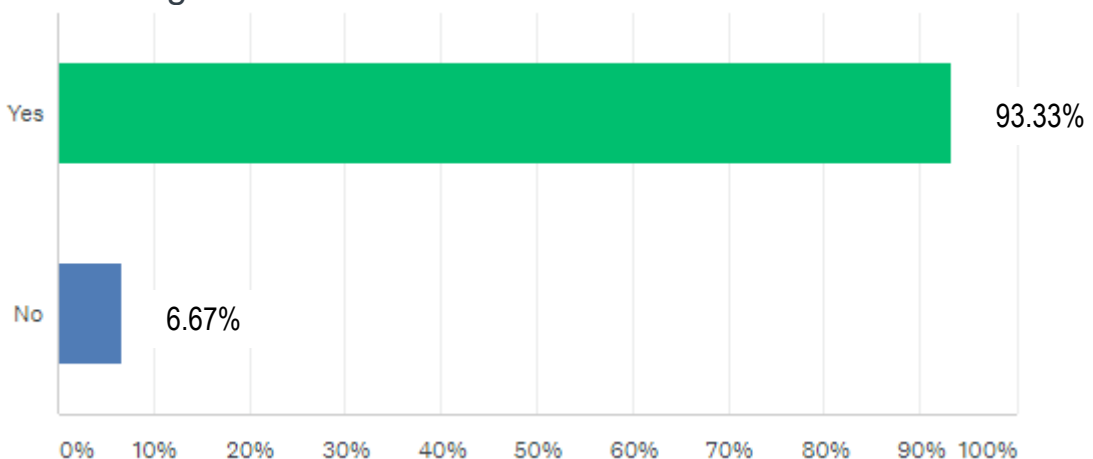

### Question 3:

When starting your project was there an expectation that there would be more leadership aimed at improving and monitoring National EM data consistency and standards?

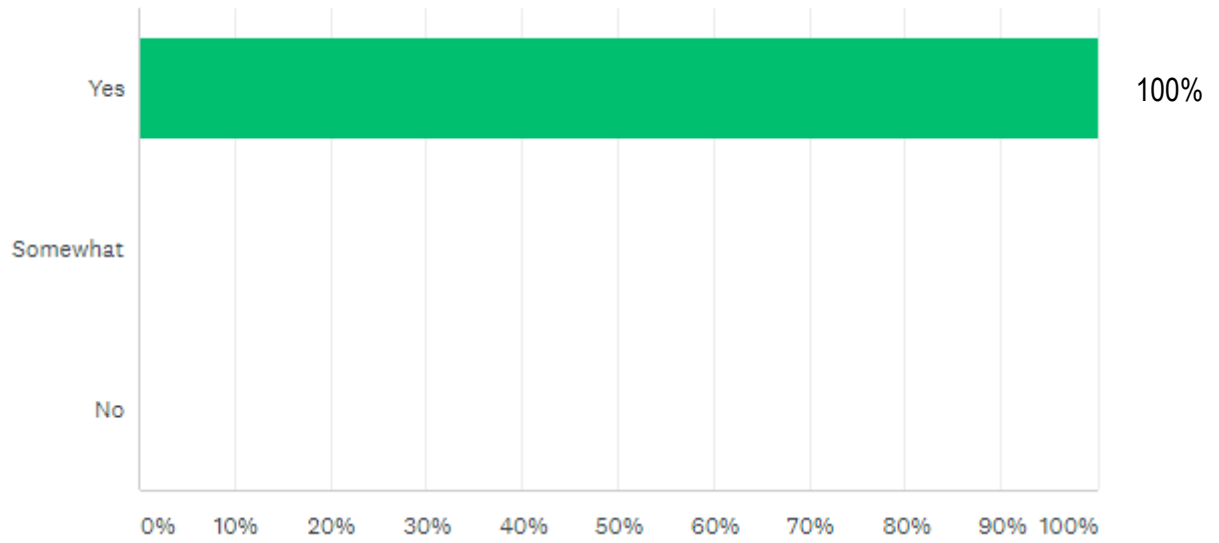

### Question 4:

Would you like EMSINA or another agency/body to undertake a followup Capability information session as we approach the next Southern High Risk Season?

**Question 5:**

Did you find (are you finding) this information capability session today beneficial?
