

EMSINA

Emergency Management Spatial Information Australia

2020

End of EMSINA Project Report

End of Project Summary for:

Project 7: Avenza Licenses

Project Lead Name:

Brenton Marchant

End of Project Report:

Summary:

- Avenza considered the difficult situations we've faced in Australia with bush fires and COVID-19 and have decided to keep the rate the same as previous years. From next year the rate will go up by 2 USD which is still a very big discount and more than larger groups in North America are getting.

Project Issues or Comments:

- nil

Follow-up Work in 2021:

- Re-communicate the new pricing and the need to meet 5000 units to be eligible for the discount.

Project Acknowledgements:

- Thank you to Gavin James from Mapuccino for his assistance in negotiations with Avenza Canada and managing individual invoicing under the EMSINA banner.
